# PRODUCTS

 **Agro-Food controls**

 **IVD controls**

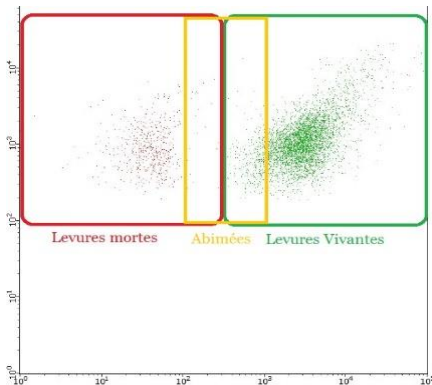

## Kit Bretta Test

Kit for specific identification and counting of *Brettanomyces* yeast by flow cytometry.

Reference	Nbr of test	Prize HT
<b>B20</b>	20 tests	450 €
<b>B40</b>	40 tests	820 €
<b>B80</b>	80 tests	1300 €

## Kit Levia Test

Kit for counting total viable yeasts by flow cytometry or fluorescence microscopy.

Reference	Nbr of test	Prize HT
<b>LeviaT100</b>	100 tests	219€

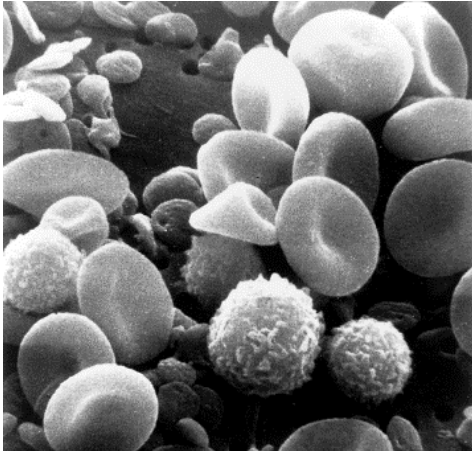

## Kit MilkyWay LAB

Kit for counting Lactic Acid producing Bacteria as required in the A protocol of ISO19344 / IDF232 norm.

Reference	Nbr of test	Prize HT
<b>MWLAB</b>	100 tests	201€

## Kit Leuco Test

Kit for counting nucleated cells in blood cells preparation like platelets or red cells pouches.

Reference	Nbr of test	Prize HT
<b>LeucoT100</b>	100 tests	799 €

# SERVICES

-  **Research and Development**
-  **Analytical performances evaluation**
-  **Agrofood services**
-  **Flow cytometry facility core**

# Research and development

R&D is the key for right progression of your society. Nevertheless, it requires technological, scientific and human resources that are not always available in your organization. Some transversal abilities may be necessary to manage multidisciplinary projects.

Amarok Biotechnologies is offering a large choice of tailor-made services:

- State of the art
- Needs identification
- Feasibility studies
- Project management
- Partners seeking
- Multidisciplinary teams management
- Technology transfer
- Laboratories renting
- Contract research services
- ...

Our services have received the French ministry agreement for *Crédit d'Impôts pour la Recherche*.

These services are certified ISO 9001 :2008.

For a quote or an information: [commercial@amarokbiotech.com](mailto:commercial@amarokbiotech.com)

# Analytical performances evaluation

For regulation registration and in-vitro diagnosis methods accreditation, the analytical performances have to be evaluated.

Our testing laboratories are specialized in data generation and validation of methods and IVD diagnostic systems.

We work on the basis of a robust quality system, experienced personnel, for reactive and confidential services.

Amarok Biotechnologies is offering a large choice of tailor-made services:

- Measure accuracy testing
  - Precision
  - Measure range
  - Within run test
  - Within lab test
- Analytical sharpness
- Analytical specificity

In partnership in our network:

- Clinical performance evaluation.
- Regulatory registration follow-up.

Our services have received the French ministry agreement for *Crédit d'Impôts pour la Recherche*.

These services are certified ISO 9001 :2008.

# Agro-Food Analysis

## Brettanomyces detection

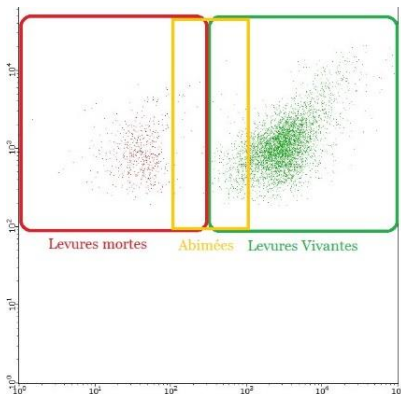

Identification and counting of *Brettanomyces* yeasts in alcoholic fermentations. Measure by flow cytometry

Matrix : Wine, Cider, Beer, Starters.

Reference	Prize HT
<b>Ana-Brett</b>	35 € / Analyse

## Total viable yeast count

Count of living yeasts by flow cytometry.

Matrix: Wine, Cider, Beer, Starters.

Reference	Prize HT
<b>Ana-Levia</b>	15€ / Analyse

## Lactic acid producing bacteria analysis (ISO 19344 norm)

Counting and viability measurement of lactic acid producing bacteria. Analysis realized on the basis of the ISO 19344 norm A or B protocol.

Matrix: Starters, Yoghurt, fermented milk products

Reference	Nb de test	Prize HT
<b>Ana-MWLAB 1</b>	1 to 4 tests	20€ / Analyse
<b>Ana-MWLAB 5</b>	5 to 9 tests	18€ / Analyse
<b>Ana-MWLAB 10</b>	10 tests and more	15€ / Analyse

# Flow Cytometry facility core

Flow cytometry is a method to explore and identify cells by fluorescence and laser scanning.

Our laboratories propose:

- 1 Gallios system with 3 lasers / 10 colors
- 1 EasyCyte 5HT with plate reader
- 1 Cyscope Fluorescence microscope with blue or green emission

We can manage your studies or train and accompany your personal, with skilled people.

Subscribe and book your reservation directly on our website.

Services	prizes HT
Facility core location	60 €/h
Technician assistance	45 €/h
Engineer Assistance	65 €/h

# Trainings

 Bio E Learning

 Classical trainings

Trainings available, 24/24h and 7/7 days, in French, with only a computer and internet access. Connect yourself to discover a wide range of laboratories applications. Accredited your lab personnel.

## ➤ Cytométrie en flux

Intitulé de formation	Tarifs HT	
	Formation	Formation + Validation
ABC de la cytométrie en flux	95 €	109,5 €
Conception d'un panel multi-couleurs	135 €	149 €
Principe du tri cellulaire	95 €	109,5 €
Préparation de l'échantillon	55 €	69,5 €
Cytotoxicité	150 €	164,5 €
Détection des Brettanomyces	95 €	109,5 €

## ➤ Qualité au laboratoire

Intitulé de formation	Tarifs HT	
	Formation	Formation + Validation
Maitriser le vocabulaire clé de la qualité	100 €	114,5 €
La démarche qualité	100 €	114,5 €
ISO 9001 : 2015	100 €	114,5 €
Base de la métrologie	150 €	164,5 €
Initiation à l'analyse des risques	100 €	114,5 €
ISO 15189 version 2012 : Focus sur le chapitre 4	150 €	164,5 €
ISO 15189 version 2012 : Focus sur le chapitre 5	150 €	164,5 €
Gestion et habilitation du personnel	50 €	64,5 €

## ➤ Cytologie

Intitulé de formation	Tarifs HT	
	Formation	Formation + Validation
Lecture du Myélogramme normal	150 €	164,5 €

## ➤ Utilisation des logiciels

Intitulé de formation	Tarifs HT	
	Formation	Formation + Validation
Microsoft Excel Initiation	55 €	69,5 €
Microsoft Excel Avancé	95 €	109,5 €

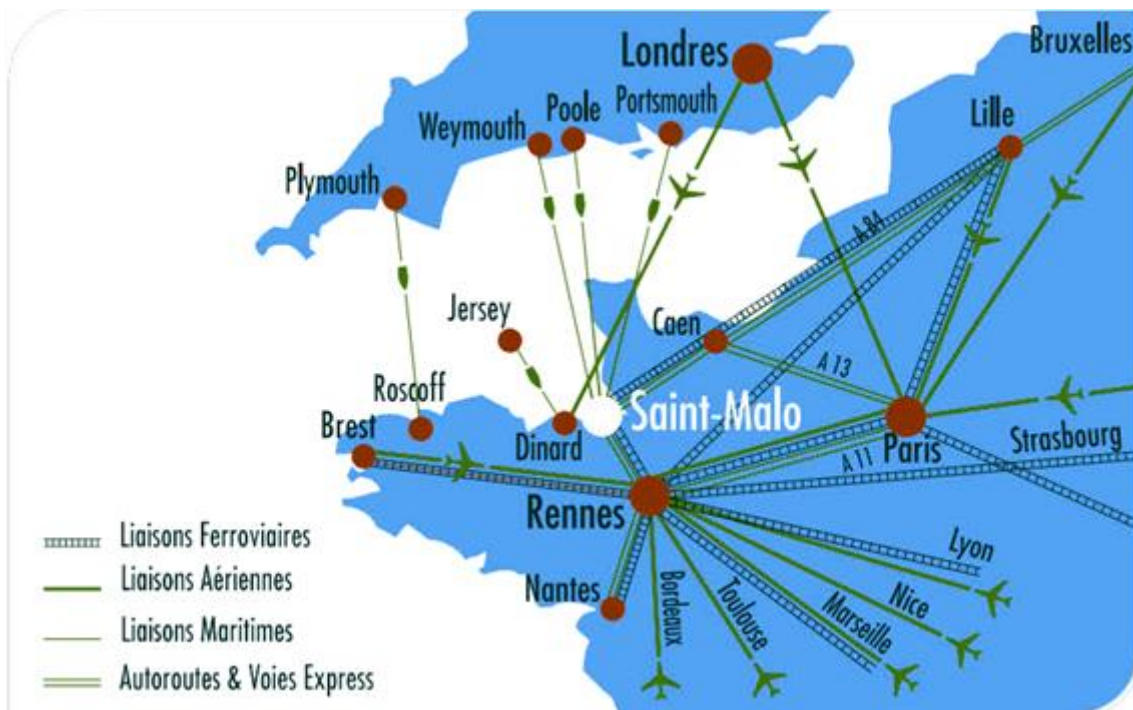

We also organize classical trainings on demand.

For further information contact us.

Amarok biotechnologies is registered for professional training under the number 53 35 09027 35
